

Tracing the origins of centrioles, cilia, and flagella

Zita Carvalho-Santos, Juliette Azimzadeh, José. B. Pereira-Leal, and Mónica Bettencourt-Dias

Vol. 194 No. 2, July 25, 2011. Pages 165–175.

The authors have noted that the assignment of some of the orthologues of CBB and cilia/flagella assembly proteins in Figure 3 was incorrect. The correct version of the figure is shown below.

The html and pdf versions of this article have been corrected. The error remains only in the print version.

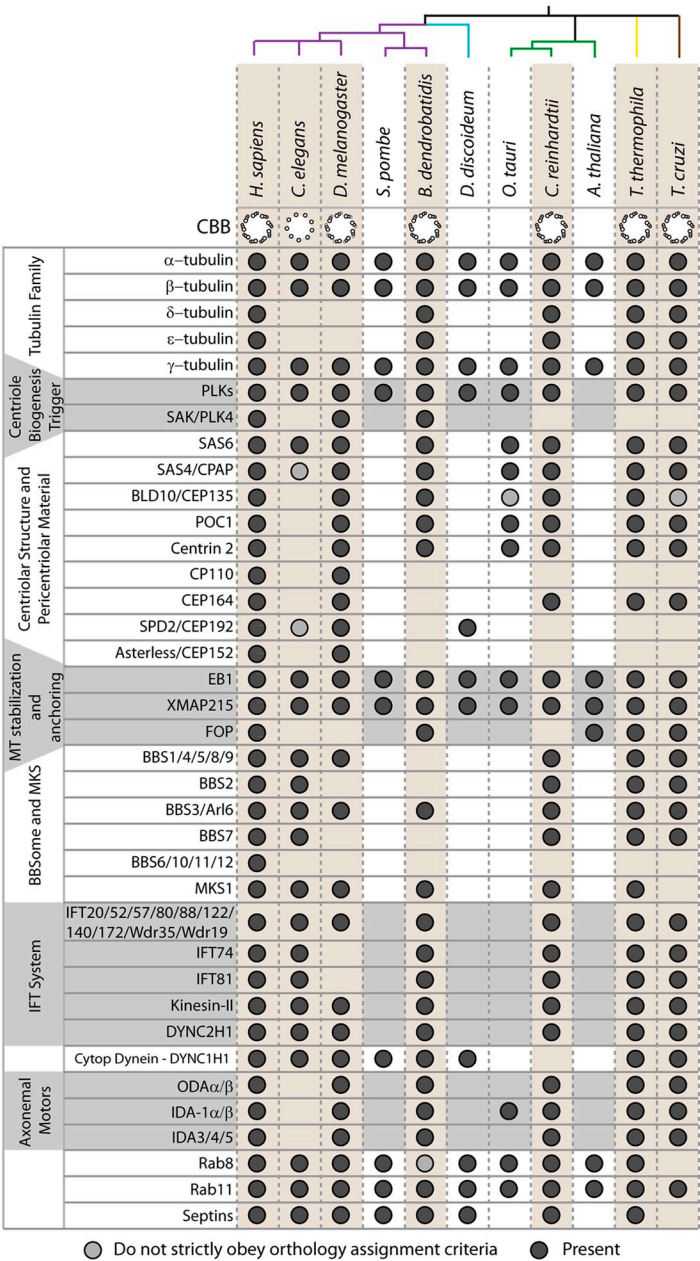

Figure 3. **Phylogenetic profile of CBB/axoneme structure and components.** Simplified taxonomic tree representing major eukaryotic groups in different colors using the same color code as in Fig. 2 (adapted from Hedges (2002) and Baldauf (2003)). Phylogenetic profile of proteins involved in CBB and cilia/flagella assembly and function. Data adapted from Jékely and Arendt (2006), Wickstead and Gull (2007), Carvalho-Santos et al. (2010), Hodges et al. (2010), Wickstead et al. (2010) and our unpublished data.
